

T.D. WRIGHT, INC.

Magnetic Rotary Tool for the Folding Carton Industry

Model MMRE
MODULAR™ MAGNETIC Cylinder
for Male/Female Die Cutting
and Creasing

U.S. Patent 6,454,686

42" MMRE with Komori-Chambon's
patented adjustable register pin system

PROVEN Reliability
PROVEN Compatability
PROVEN Efficiency

T.D. Wright's patented Modular™ Magnetic Cylinders are compatible with all wraparound flexible dies, and are **GUARANTEED** to hold your dies tightly without slipping.

T.D. WRIGHT, INC.

Model MMRE Modular™ Magnetic Cylinder

Realize the full cost saving potential of wraparound flexible steel dies. Utilizing the best design and the world's most powerful permanent magnets, the proven MODULAR™ MAGNETIC Cylinder is optimized for the extreme demands of the folding carton industry. Uniform magnetic attraction is assured by our patented matrix of powerful magnetic sub-assemblies.

Benefits:

- Extremely high** magnetic power eliminates die slippage
- Enhanced uniformity** of magnetic field eliminates cogging
- Uniform magnetic surface** eliminates dead spots
- Modular surface** allows for finishing to better tolerances than channel type cylinders

Features:

- 100% Neodymium** Iron Boron rare earth magnets
- Pin register** system option
- Precision manufactured** to tolerances of .0001" (.0025mm)
- Available** with in line pin stripping option
