Magnetic Rotary Tool for Narrow Web

Model MMRE-L
MODULAR™ MAGNETIC Cylinder
*for Small Circumference
Narrow Web Applications*

- **FORGET** everything you knew about magnetic cylinders in small repeats.
- **FORGET** that they didn't hold the die well enough.
- **FORGET** taping sharp die edges.
- **FORGET** being stuck with only hard tooling.

10" Circumference
shown here.

- **100% Rare Earth Magnetic Power**
- **Eliminates Tape and Glue**
- **Gain the Capabilities of Flexible Dies in Small Repeats**
- **Available for any narrow web press.**

T.D. WRIGHT, INC.

Model MMRE-L Modular™ Magnetic Cylinder

Originally developed for the demanding folding carton market, **Modular™ Magnetic Rare Earth technology is now affordable for narrow web!** Get Rare Earth power in the only matrix-based magnetic cylinder design.

- **Reduce Your Downtime.**
- **Gain Diecutting Flexibility.**
- **Lower Your Costs.**

10" Circumference
shown here.

- **Uniform power without dead bands**
- **Easy Die Mounting**
- **Superior durability**

The MMRE pulls the die down firmly to the surface every time thanks to the remarkable magnetic power of the rare earth magnet modules embedded in the cylinder. MMRE power means even tiny magnetic cylinders will hold, curve, and grip dies tightly without tape or glue.

**Modular™ Magnetic Rare Earth.
The new standard in magnetic rotary
tools for narrow web.**
